Section 2 - Contact Information

Important Instructions - Please Read

Contact information must be provided for **each** of the following positions as indicated below:

1. Principal Executive Officer, Chief Elected Official or other qualified individual (per GP-0-08-002 Part VI.J).
2. Duly Authorized Representative (Information for this contact must only be submitted if a Duly Authorized Representative is signing this form)
3. The Local Stormwater Public Contact (required per GP-0-08-002 Part VII.A.2.c & Part VIII.A.2.c).
4. The Stormwater Management Program (SWMP) Coordinator (Individual responsible for coordination/implementation of SWMP).
5. Report Preparer (Consultants may provide company name in the space provided).

A separate sheet must be submitted for each position listed above unless more than one position is filled by the same individual. If one individual fills multiple roles, provide the contact information once and check all positions that apply to that individual.

If a new Duly Authorized Representative is signing this report, their contact information must be provided and a signature authorization form, signed by the Principal Executive Officer or Chief Elected Official must be attached.

For each contact, select all that apply:

- Principal Executive Officer/Chief Elected Official
- Duly Authorized Representative
- Local Stormwater Public Contact
- Stormwater Management Program (SWMP) Coordinator
- Report Preparer

Section 3 - Partner Information

Did your MS4 work with partners/coalition to complete some or all permit requirements during this reporting period? Yes No

If Yes, complete information below.

Submit a separate sheet for each partner. Information provided in other formats will not be accepted. If your MS4 cooperated with a coalition, submit one sheet with the name of the coalition. It is not necessary to include a separate sheet for each MS4 in the coalition.

If No, proceed to Section 4 - Certification Statement.

Section 4 - Certification Statement

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations."

This form must be signed by either a principal executive officer or ranking elected official, or duly authorized representative of that person as described in GP-0-08-002 Part VI.J.

4. Evaluating Progress Toward Measurable Goals MCM 1

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Village's Public Education and Outreach program will be tailored to describe topics related to the impacts of storm water discharges on local water bodies, pollutants of concern and their sources (e.g., pathogens to the Hempstead Harbor watershed), and the steps that can be taken to reduce pollutants in storm water runoff and non-storm water discharges.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Village evaluates the annual number of direct mailings as an indicator for measuring the overall effectiveness of the Village's compliance with this program's requirements. The Village sent out one mailing in this reporting period.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this Measurable Goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Village plans to continue evaluating the annual number of direct mailings to residents as an indicator for measuring the overall effectiveness of the Village's compliance with the Public Education and Outreach program requirements in the next reporting cycle. The Village will conduct direct mailings related to storm water and/or pollution prevention as necessary throughout the year.

7. Evaluating Progress Toward Measurable Goals MCM 2

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMP in this reporting period.

The Village's Public Involvement and Participation program will incorporate stewardship activities that help to reduce pollutants of concern (e.g., pathogens to the Hempstead Harbor watershed) and encourage the general public, residents and businesses to become involved in storm water management and environmental stewardship events.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Village has chosen to evaluate the number of environmental events held as an indicator for measuring the overall effectiveness of the Village's compliance with the Public Involvement and Participation program requirements. There was one environmental event (Green Day) hosted by the Village in this reporting period. The Green Day is held to highlight various conservation efforts in the Village. Notice of the event is published on the Village's website and sent to residents via email.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?
 Yes No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMP?
 Yes No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Village plans to continue evaluating the number of environmental events as an indicator for measuring the overall effectiveness of the Village's compliance with the Public Involvement and Participation program requirements in the next reporting cycle. The Village will support programs and events related to storm water management and environmental stewardship periodically in the next reporting cycle.

MS4 Annual Report Form

12. Evaluating Progress Toward Measurable Goals MCM 3

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Village Illicit Discharge Detection and Elimination program will focus on identifying, eliminating, reducing and preventing illicit discharges to the Village municipal separate storm sewer system to the maximum extent practicable.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Village has chosen to evaluate the number of illicit discharges confirmed as an indicator for measuring the overall effectiveness of the Village's compliance with the IDDE program requirements. There were two illicit discharges detected during this reporting period. Village Code Enforcement observes conditions in the Village and responds to complaints on a daily basis. Summonses are issued, tracked and brought before the local justice court as necessary.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Village will continue following the procedures for IDDE described in the Village of East Hills Written Procedures for MCM3: IDDE and the CWP/USEPA Illicit Discharge Detection and Elimination: A Guidance Manual for Program Development and Technical Assessment. Illicit discharges will be investigated and eliminated according to the authority provided by the Village illicit discharge local law on a case-by-case basis.

7. Evaluating Progress Toward Measurable Goals MCM 4

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Village's Construction Site Storm Water Runoff Control program will provide equivalent protection to the NYSDEC SPDES General Permit for Stormwater Discharges from Construction Activity. This includes reviewing SWPPPs submitted to the Village for projects disturbing an acre or greater of land. The review process will take note of any potential discharge of pathogens to the Hempstead Harbor watershed.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The acre threshold for Stormwater Discharges from Construction Activity is rarely met within the Village. There were no SWPPPs submitted to the Village in this reporting period. All construction projects are inspected an average of 3-4 times throughout the entire project regardless of size of disturbance. Security and Code Enforcement patrol the Village and respond to complaints on a daily basis.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?
 Yes No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?
 Yes No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Village plans to continue evaluating the number of SWPPPs reviewed as an indicator for measuring the overall effectiveness of the Village's compliance with the Construction Site Storm Water Runoff Control program requirements. The Village will review SWPPPs as they are submitted to the Village for comment and approval. The Village will continue monitoring construction sites for potential storm water runoff conditions and violations of Village code.

6. Evaluating Progress Toward Measurable Goals MCM 5

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMP in this reporting period.

The Village's Post-Construction Storm Water Management program will address storm water runoff from regulated new development and redevelopment projects to the Village's MS4. All construction permit applications requiring changes in grades or impervious surfaces (regardless of size of land disturbance) are required to submit plans showing the grading and drainage of all surfaces, all septic and structures (existing and proposed), and the location, with details, of erosion control practices.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The acre threshold for Stormwater Discharges from Construction Activity is rarely met within the Village. All construction projects are required to use storm water best management practices and are monitored for potential storm water runoff conditions regardless of the size of land disturbance. The Village requires on-site retention facilities of new construction of impervious surfaces greater than 2,000 square feet.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Village plans to continue requiring storm water best management practices and on-site retention facilities. Security and Code Enforcement will continue to drive throughout the Village observing conditions and responding to complaints on a daily basis.

- On behalf of an individual MS4
- On behalf of a coalition

How many MS4s contributed to this report?

--	--	--

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.

<u>Operation/Activity/Facility</u>	<u>Addressed in SWMP?</u>		<u>Self-Assessment Operation/Activity/Facility performed within the past 3 years?</u>

DRAFT

MS4 Annual Report Form

This report is being submitted for the reporting period ending March 9,

2	0	1	7
---	---	---	---

If submitting this form as part of a joint report on behalf of a coalition leave SPDES ID blank.

Name of MS4/Coalition

Village of East Hills

SPDES ID

N	Y	R	2	0	A	0	0	1
---	---	---	---	---	---	---	---	---

2. Provide the following information about municipal operations good housekeeping programs:

- Parking Lots Swept (Number of acres X Number of times swept) # Acres

	1	2	0	0
--	---	---	---	---
- Streets Swept (Number of miles X Number of times swept) # Miles

		2	6	0
--	--	---	---	---
- Catch Basins Inspected and Cleaned Where Necessary #

		1	8	0
--	--	---	---	---
- Post Construction Control Stormwater Management Practices Inspected and Cleaned Where Necessary #

			3	0
--	--	--	---	---
- Phosphorus Applied In Chemical Fertilizer # Lbs.

				0
--	--	--	--	---
- Nitrogen Applied In Chemical Fertilizer # Lbs.

				0
--	--	--	--	---
- Pesticide/Herbicide Applied # Acres

			0	.	1
--	--	--	---	---	---

(Number of acres to which pesticide/herbicide was applied X Number of times applied to the nearest tenth.)

3. How many stormwater management trainings have been provided to municipal employees during this reporting period?

				4
--	--	--	--	---

4. What was the date of the last training?

1	1	/	1	6	/	2	0	1	6
---	---	---	---	---	---	---	---	---	---

5. How many municipal employees have been trained in this reporting period?

		3
--	--	---

6. What percent of municipal employees in relevant positions and departments receive stormwater management training?

1	0	0	%
---	---	---	---

MS4 Annual Report Form

7. Evaluating Progress Toward Measurable Goals MCM 6

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMP in this reporting period.

The Village Pollution Prevention and Good Housekeeping for Municipal Operations program will address operations that collect, store or release sediments, wastes or other potential pollutions with special consideration of discharges of pathogens to the Hempstead Harbor watershed.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Village has chosen to evaluate the number of catch basins inspected annually as an indicator for measuring the overall effectiveness of the Village's compliance with the Pollution Prevention and Good Housekeeping for Municipal Operations program requirements. The Village inspected and cleaned out as necessary 180 catch basins in this reporting cycle.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?
 Yes No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMP?
 Yes No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Village plans to continue the ongoing catch basin inspection and cleaning schedule during the next reporting cycle. The Village will continue following the BMPs outlined in the Village Best Management Practices for Municipal Facilities and Operations guidance document and the NYSDEC Municipal Pollution Prevention and Good Housekeeping Assistance Document as necessary in the next reporting cycle.

Pathogen Impaired Watershed Improvement Strategy Areas

PERMIT #

Waterbody Name

MS4 Name

Reporting Period Ending (mm/dd/yyyy) / /

Reaffirmation for No Discharge

- The Municipal Separate Storm Sewer System as defined in 40 CFR 122.26(b)(8) and (16) including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, man-made channels, or storm drains that the owns or operates does not have any outfalls that discharge directly or indirectly through another MS4, into the

Watershed Status

Please describe what your stormwater management program is doing to address the source of pathogens to the impaired waterbody

The Village has included pathogen-specific source control BMPs in their SWMP, which are discussed further below, and submitted mapping and land use data to DEC for the Hempstead Harbor sewershed.

If you suspect the sources of pathogens that contribute a load to this watershed through the MS4 are something other than the sources listed in the TMDL, please state what you believe to be the suspected sources and how they were determined.

The Village has no reason to conclude that there are other sources of pathogens than the ones listed in the TMDL at this time.

Public Education & Outreach of Pathogens as the Pollutant of Concern

1. Description of the education program.

The Village's Public Education and Outreach program incorporates topics related to the sources, impacts and reduction of pathogens. Educational materials are distributed on the Village's website; in print as brochures and articles; and at public events and presentations throughout the year.

2. Who are the target audiences and what is the message delivered to each target audience?

Target audiences are the general public (e.g., public employees, residents, businesses). The message is that pathogens in storm water can impact their health, recreation and the local economy. A number of easily adopted source control practices are also suggested.

3. How are behavior changes being measured?

The Village evaluates the occurrence and/or participation in the educational programs as a measure of SWMP effectiveness. For example, the Village promotes and maintains a dog park, which is well attended.

Permit #

NYR20A001

4. What are the education plans and goals for the next 6 months?

The Village plans to continue implementing the established public education and outreach program requirements in the next 6 months.

Illicit Discharge Detection and Elimination

5. What has been done to actively look in these watersheds for Illicit discharges? Describe procedures and staff that are involved in this reconnaissance.

The Village has continued to implement its ORI program of inspecting every Village outfall at least once every five years, which is the responsibility of DPW staff. Staff in other Village departments that conduct regular field activities have been instructed to keep an eye out for evidence of illicit discharges during their daily operations.

Answer Either 6a. or 6b.

6a. No Illicit Discharges were discovered during this reporting period Explain how the determination for No Illicit Discharges was made

As stated above, the Village has continued the ORI schedule of once every five years as stipulated by GP-0-15-003. Given this schedule and the fact that GP-0-15-003 does not require a greater frequency of ORI inspections within the Village's Hempstead Harbor sewershed, six outfalls happened to be inspected during this 6-month reporting period.

6b. Illicit Discharges were discovered during this reporting period What has the municipality determined from the illicit discharges that have been found?

[Empty text box for response to 6b]

Complete Either 7a. (Map) or 7b. (Written Response)

7a. Attach a map showing where IDDE outfall inspections have occurred this reporting period, which outfalls have illicit discharges, and if the discharge has been removed, where the illicit connection is in the system and how it is entering the system (i.e. Direct connection to the MS4, overland connection, structural failure of the MS4 piping network)

7b. Give the number of inspections performed during this reporting period. # Inspections (Provide municipal identification #s for all outfalls inspected)

State which outfalls have illicit discharges and whether or not the illicit discharge has been removed. Also describe where the illicit discharge is in the system and how it is entering the system (i.e. Direct connection to the MS4, overland connection, structural failure of the MS4 piping network)

[Empty text box for response to 7b]

Permit #

NYR20A001

Post Construction Stormwater Management

8. Number of Post Construction Stormwater Management Practices (SMPs) that discharge to an MS4 that drains to the listed waterbody # SMPs 0
- As part of the RFI sent by the Department in August 2016, the information in #8 has already been submitted
- a. Describe the municipality's policy on post construction stormwater management

The Village Post-Construction Storm Water Management program addresses storm water runoff from regulated (i.e., disturbances of an acre or more) development projects. The Village recommends and encourages the use of BMPs for development projects through the SWPPP review and site plan approval process regardless of the size of disturbance. The Village considers the use of green infrastructure measures in capital improvement projects.

9. Describe the Post-Construction Stormwater Management plan and goals for the next 6 months

The Village is awaiting the revision of the TMDL for Hempstead Harbor and notification of the Village's individual responsibilities for pollutant load reductions through the MS4.

Municipal Operations Pollution Prevention/Good Housekeeping

- Non-Traditional MS4 (skip Question 10)

- 10a. Is pet waste an issue in the MS4 areas? If pet waste is not an issue please describe, in the box below, the reasoning behind this viewpoint.

The Village has identified the proper collection and disposal of dog waste as a concern in the Village.

- 10b. If pet waste is a problem, where has it been found to be a problem? Are there any areas where pets are known to frequent (such as parks, road ends, boat launches, marinas, trails). Are there any indications that pet waste is being disposed of improperly (ie. dumped into a catch basin)?

Most of the Village's Hempstead Harbor sewershed are areas where pet populations are expected to be in higher concentrations (i.e., residential areas). Incidences of pet waste being disposed of improperly have anecdotally decreased over the last decade.

- 10c. What strategies are in place to manage the proper disposal of pet waste? What strategies are planned to improve pet waste disposal practices in areas identified in need of improvement?

The Village has posted signs and requires dogs waste in any public place or street to be cleaned up and disposed of immediately through the Village Code. To encourage the proper disposal of dog waste, the Village allows dogs in the Park at East Hills where pet waste bag stations and receptacles are maintained.

PERMIT #

- 10d. What measurable indicators are being used to help determine the effectiveness of these strategies?

The Village evaluates the occurrence and/or compliance with the dog waste laws as a measure of SWMP effectiveness. For example, the Village monitors the citations for not properly disposing of dog waste, which are rarely issued.

- 11a. Is the goose population an issue in the MS4 areas? If the goose population is not an issue please describe, in the box below, the reasoning behind this viewpoint.

The Village does not have a significant goose population within its borders. Village employees rarely witness flocks of geese on Village properties.

- 11b. If the geese are a problem, where has it been found to be a problem? Provide a description of the location or a map showing the areas of high population density of geese.

- 11c. What strategies are in place to manage the population of geese on municipal properties?

- 11d. What measurable indicators are being used to help determine the effectiveness of these strategies?
