ARCHITECT'S STATEMENT

Project Address: _____ Date: _____

Project Description: _____

Architect of Record: _____ Lic #: _____

Floor Area is defined as: The sum of the horizontal areas of the floors in each story of a building or buildings (having a floor or floors) measured from the exterior of the outside walls of such building or buildings without exclusion of any areas on the floors being measured whatsoever (i.e., including attached garages, closets, bathrooms, stairwells and other open areas, and all accessory buildings), except that basements shall be excluded. For half stories (including storage areas over garages, etc.), horizontal areas that contain no habitable space, where the vertical distance between the floor joists and the roof structure (not ceiling joists or collar ties) above is less than seven feet and where the outboard end of the rafters rests directly on the bottom plate, shall be excluded. Further, for horizontal areas where the floor-to-ceiling height is 14 feet or greater, twice the horizontal area shall be included. Sec. 271-226 C [Amended 7-21-2008 by L.L. No. 3-2008]

Are all areas of the structure that meet this definition included in your floor area calculations?

- Yes
- No

Are all storage areas and non-habitable space clearly marked on the appropriate **floor plan** submitted?

- Yes
- No

Substantially Improved Structure is defined as: The enlargement, replacement or alteration of any structure, the cost of which equals or exceeds 50% of the market value of the preexisting **structure** prior to the time of the improvements. Sec. 271-267

Will the proposed project result in a substantially improved structure as defined above?

- Yes
- No

Do the plans and project description submitted adequately reflect the entire degree of renovated or altered areas (removal and replacement of systems, insulation, sheathing etc.)?

- Yes
- No

Foundation Elevation: "On graded sites, the top of any exterior foundation shall extend above the elevation of the street gutter at a point of discharge"....."a minimum of 12 inches plus 2 percent" (R403.1.7.3 in part)

If this project is a new house, does the foundation elevation meet this requirement?

- Yes
- No

Are all proposed elevations needed to determine compliance clearly marked on site plan (TOF, FF, Garage FF, discharge points to roadway, adjacent grades)?

- Yes
- No

I, _____, am the Architect of Record for the above project. I have read the above and understand that, as the designer of this project, it is my responsibility to ensure that the project complies with all applicable codes and regulations and attest that the above answers are true and accurate to the best of my knowledge.
